

# COOL BOTTLE RG

Cool Bottle is the perfect grab & go unit for offering cold beverages and packaged products. The integrated product slide ensures that products are replaced automatically to keep the unit looking fully stocked.

## Produkt-Highlights

- Unit uses propane (R290), making it especially environmentally friendly and energy-efficient
- Grab & go: sales display case is open on the customer side for attractive presentation of chilled beverages, food or snacks
- Angled presentation platform ensures perfect overview of all the products offered
- Product slide: sales frontage is always well-stocked as new products slide automatically into place whenever items are taken out to ensure optimised product pressure
- customer side exerp for easy filling
- Perfect for wall placement, as stand-alone solution or combined with other refrigerating and heated display cases
- Quick cleaning: can be cleaned in no time thanks to removable product slide and easily removed plug-in frame

## Temperature range

**Air**  
+5 °C
