

SNACKY COOL

Freshly prepared in front of the customers and served immediately. SNACKY offers everything you need for a successful all-day concept and maximised turnover, in a very small space: attractive presentation space, optimised stocking and easy handling.

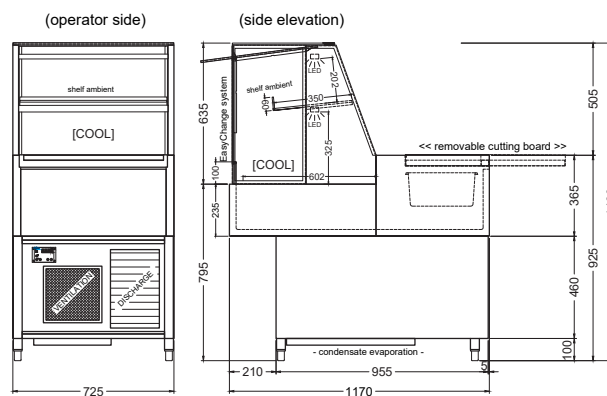

Highlights

- Both refrigerating areas cooled by central evaporator in 3M1 (filling and presentation)
- Refrigerating area: energy-efficient air curtain cooling for optimal product temperature, and additional neutral shelf for a comprehensive display
- Fresh preparation, immediate service and product stocking in a small space
- Stocking of cold ingredients below the sliding cutting boards for optimised response to customers' individual food requests
- Easy Change: can be used as service or self-service display case with insertable front glass

Accessories and custom options

- RAL coating
- Mobile on castors
